

2020 IEEE INTERNATIONAL WORKSHOP ON

# METROLOGY FOR AGRICULTURE AND FORESTRY

UNIVERSITÀ DI TRENTO

04-06 NOVEMBER 2020

## CALL *for* PAPERS

*for the Special Session on*

## SMART SYSTEMS IN AGRICULTURAL, LIVESTOCK AND FOOD-PROCESSING FACILITIES

### ABSTRACT

In the recent years, specific sensors, software, monitoring and control systems have been developed and optimized in the agricultural sector, allowing the farms to take advantage of more and more precise knowledge of the metrics involved in cultivation and production. With a specific focus on agricultural facilities, the goal of the present special session is to provide a forum for focused discussions on the monitoring and control system specifically designed for agro-industrial facilities and the related benefits in terms of indoor environmental conditions, food safety and quality and farm sustainability.

### ORGANIZERS

**Alberto Barbaresi**
